Professional Experience

Senior Web Developer & Leader

Jan 2023 – May 2025

Personal Team

- Lead a team of 4 developers managing 40+ WordPress multi site networks, Shopify Plus storefronts and WooCommerce B2B portals.
- Architected and executed migrations from legacy WooCommerce stores to Shopify Plus, improving checkout conversion by 18% and reducing page load time by 45%.
- Developed custom Word Press plugins and Shopify apps to automate inventory sync, pricing rules and B2B customer tiering.
- Established CMS governance, security hardening and CI/CD pipelines for theme/plugin deployments using WP-CL I, GitHub and Docker.

Software Engineer

Mar 2020 – Dec 2022

Upwork / Rmote

- Delivered 50+ CMS projects for international clients, specializing in Word Press, WooCommerce and Shopify.
- Built custom WordPress themes from scratch using ACF, Gutenberg blocks and page builders like Elementor and Divi.
- Developed bespoke plugins for memberships, subscriptions and multi-vendor marketplaces..
- Migrated clients between WooCommerce and Shopify handling data migration, SEO preservation and API integrations with Stripe, PayPal, Mailchimp and ERP systems.
- Optimized WooCommerce and Shopify stores for Core Web vitals, achieving 90+ Lighthouse scores and increasing organic traffic by an average of 35%.

Web Developer

Jun 2018 – Feb 2020

Realpage | Hybrid (Philippines | Remote)

- Developed and maintained custom WordPress themes and plugins for corporate marketing sites and client-facing portals
- Integrated WooCommerce for subscription-based services, customizing checkout flows, payment gateways, and automated invoicing.
- Collaborated with designed and marketing teams to implement responsive, accessible templates using Gutenberg, ACF and custom post types.

Personal | Freelancer

- Built and launched 10+ small business websites using WordPress and WooCommerce, including custom themes and basic plugin configurations
- Set up Shopify stores for local retailers, customizing themes with Liquid and configuring apps for inventory, shipping and payments.
- Learned core CMS concepts: custom post type, taxonomies, hooks, filters and template hierarchy.
- Provided maintenance, updates and security hardening for client WordPress sites
- Used Git for version control and managed staging/production deployments via cPanel

Key Projects

WooCommerce to Shopify Plus Migration

- Migrated 3 large B2B WooCommerce stores (10 000+ SKUs each) to Shopify Plus with zero downtime
- Developed a custom Node.js migration tool to sync products, customers, orders and SEO metadata via the Shopify Admin API
- Built a custom Shopify app for tiered B2B pricing, quote requests and ERP inventory sync

Result: 18% increase in checkout conversion, 45% faster page loads, 20+ hours/week saved on manual inventory work.

Multi-Vendor WooCommerce Marketplace

- Built a multi-vendor marketplace with vendor dashboards, commission management and automated payouts via Stripe Connect
- Developed custom plugins for vendor onboarding, shipping zones and dispute resolution
- Optimized MySQL queries and implemented Redis caching for high-traffic product pages

Result: Scaled to 500+ Vendors and 5000+ Monthly visitors without performance degradation.

Subscription-Based WooCommerce Portal

- Integrated WooCommerce Subscription for recurring billing, custom checkout flows and automated invoicing
- Built custom post types and ACF fields for client-facing resource portals
- Improved site performance with WP Rocket, Redis and image optimization cutting load times by 40%

Result: Reduced cart abandonment by 22% and improved customer retention through seamless renewal UX.
